2.4 m Non-Penetrating Roof Mount MODEL 4VL

The Skyware Global 4VL non-penetrating roof mount is designed to accommodate the 2.4 m offset antenna system. This mount has been field proven to meet demanding commercial applications.

The non-penetrating roof mount is designed to be used on a flat roof and incorporates trays to hold ballast. The 4VL NPRM is a solid, easily-installed and cost-effective mounting system.

- For installations up to 125 mph survival.
- Includes rubber roof pads.
- Tray holds up to nine blocks each.
- Ballast tailored to site requirements.
- Up to two trays per leg.
- All materials comply with EU directive No. 2002/95/EC (RoHS)
